Phone: 763-318-1143

Global Capital Resources, LLC has several current clients seeking funding for their joint ventures, as follows:

Client #1 seeks about $300 million for a 1 million square foot solar powered, energy efficient indoor agriculture facility designed to grow fruits, vegetables, and cannabis. Situs is open.

SUMMARY OF FINANCING NEEDED

FINANCING REQUIRED:	**$300 million USD, 7 year Term Loan, with Equity JV Interest, if multiple facilities, > $$$, or Build to Suit, NNN Lease**
TYPE OF BUSINESS:	**Indoor Solar Farming (Cannabis + ag products)**
FINANCING TYPE:	**Term Loan, or Participating Debt (Joint Venture)**
REPAYMENT / EXIT:	**Sale, Buyout, or Refinance**
ASSETS / COLLATERAL:	**1 Million Sq Ft. Facility**
LOCATION:	**Situs is open**

GCR client #2411 seeks $300 million to build a solar powered indoor farming facility, one million square feet under roof. This initial prototype facility can then be used as a model, with the sponsor willing to license or oversee up to ten additional facilities.

A flexible, state-of-the-art facility is planned, featuring the latest in technologies. Indoor farming is much less susceptible to external environmental shock factors, as

the world's weather patterns are experiencing extremes that threaten much of our world's prior stability. Other advantages include lower water and energy usage.

The recent shifts in cannabis regulations and laws - with half of the states in America now either having legalized or have plans to legalize cannabis - brings new markets and channels for cannabis sales. There is also the possibility for vertical integration: manufacture and retail distribution of cannabis.

Thus, the planned targeted mix is 50% of space dedicated to edible agricultural products and a 50% allocation of space to cannabis cultivation.

A geographic location with proximity to a major metro area will minimize transport costs and allow timely delivery of fresh produce.

The key sponsor has worked in this sector as a contractor and maven consultant, focusing on indoor agriculture, cost efficiency optimization of yields - with exposure to a variety of crops and the latest technologies – and green energy alternatives.

Exit strategies include sale to the investor, refinance, sale to a 3rd party, or perhaps other options.

With expression of interest, further details are available.

Sincerely - James A. McCoy

FINANCIAL SNAPSHOT (Pro-forma, reference financial projections):

	REVENUE ($000)	ESTIMATED OPERATING INCOME ($000)
2024	Construction	
2025	Construction	
2026	12,000	(13,000)
2027	77,000	41,000
2028	87,000	45,000
2029	98,000	50,500
2030	102,000	49,500
2031	106,000	48,500
2032	109,500	46,000
2033	113,000	43,500
2034	116,500	42,000
2035	120,000	38,500

GCR opportunity #2: BETTER TV: NOW! seeks $250 million as a joint venture pledge to establish a new TV network platform, as follows:

Did you every turn on your TV only to view 100 plus channels of irrelevant, un-exciting, boring programming, such as soap operas, and programming tainted with sex and violence? Ever wonder why good quality, meaningful content was not featured?

If you share the same opinion, let's make a change! INTRODUCING BETTER TV: NOW!, "THE GOOD CHANNEL!"

This venture seeks to fill this void. A 24/7 channel dedicated to improving the quality of life for all, filled with good programming, good content, practical and useful to all in their everyday life.

PHASE I: Facilities acquisitions and formation of seven "programming teams" each staffed by about 10 programming artists dedicated to bringing forward meaningful programming content aimed at adult and youth audiences with practical daily content, good programing: useful, educational, and helpful. During year one, staffing will be recruited, facilities acquired, staffed and furbished with about 20 employees per facility, with build-up of a library of programming content in years 1 – 3 that in year 4, a 7/24 channel will be enabled, each programming team responsible for ultimately providing 1 day per week per facility of 24 hour content.

PHASE II: "THE GOOD TV CHANNEL" will air in year 4. 7/24 content will feature: education, health care, travel, personal enrichment, arts, achievement, technology, and other shows featuring common guidance and sensible, creative programming with both children and adult themes.

PHASE III: Product introduction and integration, several hundred thousand square foot facility needed as a manufacturing / distribution facility. Relevant products will be marketed that a second significant revenue source will be created. Phase III, starts in year 4 or 5.

PHASE IV: Exit via sale in year 10, perhaps an IPO. Proceeds to be distributed to the owners, employees, and management.

Funding needed, ($250 million): $200 million for PHASE I & II, and $50 million for PHASE III. Enterprise value is projected at a minimum of $1 - $2 Billion.

Location(s): Seven programming locations: Minneapolis, MN, San Diego, CA, Portland, OR, Las Vegas, NV, Nashville, TN, Orlando, FL, Charlotte, NC (HQ).
